

Friday 10th September 2021

Dear Year 11 Varndean Families,

Year 11 webinar: Supporting Wellbeing and Progress:
Thursday 16th September 2021 at 6.15pm

As the new term begins we are pleased to invite you and your child to Varndean School's first *online* 'Wellbeing and Progress' evening of the year.

This live webinar will provide an opportunity for parents and carers to hear from key members of staff about how to support your child through their final year at Varndean. Sessions will allow you and your child to think about the importance of the year ahead and how the school can support crucial learning choices for GCSEs and Post-16.

As your child returns to school they may feel particularly anxious about the year ahead. During the webinar we will discuss **Strategies to support Wellbeing** and there will be opportunities to ask questions. You will also hear from the **English, Maths and Science** departments, find out about what your child will be studying and how best to support their learning at home.

We will also provide crucial information on the **College Application Process** along with key dates and information from **local colleges**.

To attend this webinar please use the link below. *The evening is intended to get parents and children working together so please encourage your child to watch the webinar with you.*

Year 11 Wellbeing and Progress webinar: Thursday 16th September 2021 6.15pm-7.30pm
